

Leverage data. Create INFINITT value

INFINITT is a pioneer among global PACS manufacturers. More than 6,500 customers in over 55 countries use INFINITT's products in all areas of diagnostic imaging. While INFINITT Healthcare has its headquarters as well as research and development centre in Seoul, South Korea, INFINITT Europe operates from Frankfurt as its European headquarters.

The innovative product portfolio ranges from INFINITT PACS as a cross-departmental solution for image data management, RT PACS for consolidated access to radiotherapy data and DoseM for reliable and precise dose monitoring to the INFINITT Healthcare Platform as a Vendor Neutral Archive (VNA). INFINITT's digital pathology solution simplifies the entire pathology workflow and enables more efficient, accurate and faster diagnosis and reporting. The products are complemented by AI applications for data analysis.

"Leverage data, create INFINITT value." - INFINITT's mission is to help healthcare professionals enhance the overall efficiency and quality of care by properly leveraging the medical data at hand.
